

Our Mission

- › To promote the global awareness of the advantages of endoscopic cardiac surgery to patients, surgeons and industry partners.
- › To increase the safe and wider adoption of endoscopic techniques in cardiac surgery.
- › To drive improvements in short and long term outcomes for cardiac patients using endoscopic surgery.

Our Vision

- › Help cardiac surgery become a speciality where an endoscope is used more widely to improve surgical performance and improve patient outcomes.
- › We believe that the organisation should be a not for profit organisation.
- › We also believe that membership of the organisation will remain free to nominated and full members.

Structure

Chairman: Patrick Perrier
